

1 26. The method of claim 25, wherein some identification data or said one or  
2 more instruct signals are embedded in a television signal containing said data unit.

3 27. The method of claim 25, wherein said step of transmitting directs said  
4 broadcast or cablecast transmission to a plurality of receiver stations at the same time  
5 and each of said plurality of receiver stations receives or responds to said one or more  
6 instruct signals concurrently.

7 28. The method of claim 25, wherein said step of transmitting directs said  
8 broadcast or cablecast transmission to a plurality of receiver stations at different times  
9 and each of said plurality of receiver stations responds to said one or more instruct  
10 signals at a different time.

11 29. The method of claim 25, further comprising the steps of receiving said  
12 data unit at a receiver in the transmitter station, communicating said data unit from said  
13 receiver to a memory location, and storing said data unit at said memory location for a  
14 period of time prior to communicating said data unit to a transmitter.
